Apparently my reply didn't get to most of the recipients. Second try...

Hi all,

Thanks for coming all the way over to meet. I know I spoke fast and touched on a lot of topics. Please feel free to follow up with me anytime for more info or to dig deeper on any topic. If necessary, I can pull in others from our team with specific expertise on whatever topics you're interested in.

I've attached the presentation. Also, I'll wait to hear who needs an EPA Geoplatform account. I will need full name and email address.

Sincerely,

Cheryl

Dan,

Thanks to you and your staff for taking time out of your busy schedule to meet with us today. We found our short time with you very informative, and we appreciate your willingness to answer our questions. We look forward to meeting with Randy in the near future and will be reaching out soon.

Warmest thanks,

-George

George et al

Really great to have you come down and hear about our GIS and data management tools. If I missed anyone in the group, please forward this email on.

I am cc'ing Randy Nattis on the email so your folks can connect with him on the data management plan/SCRIBE side of things. Randy is one of our top people across the country on the subjects, in addition to having a wealth of field experience. So he brings a unique perspective that might prove very useful for the management of Exide data.

We'd be happy to come up to Sacramento to brief out on our data management approaches, if that would be helpful. Let us know how we can help out.

Best, Dan Meer
